MC1:	Chief, CIA/PID (EPIC)
Subject:	Search for Missile Associated Facilities with Shuang-Cheng-Tru Missile Test Range
REFERENCE:	(a) Requirement C-SI-3-80,351 (b) CIA/PID Project C 984-63
requesting a	memorandum is in response to your requirement dated 11 July 1963 search within the area bounded by the coordinates 40° to 42° 20'N
requesting a send 78° to 80°	memorandum is in response to your requirement dated 11 July 1963
requesting a send 78° to 80°	memorandum is in response to your requirement dated il July 1963 search within the area bounded by the coordinates 40° to 42° 20'N second by the coordinates to the
requesting a send 78° to 80° Shuang-Cheng-Cheng-(a)	memorandum is in response to your requirement dated 11 July 1963 search within the area bounded by the coordinates 40° to 62° 20'N E for possible missile associated facilities related to the four Test Renge.
requesting a send 78° to 80° Shuang-Cheng-Cheng-(a)	memorandum is in response to your requirement dated 11 July 1963 search within the area bounded by the coordinates 40° to 42° 20'N E for possible missile associated facilities related to the fru Test Renge.  did not cover the search area.  was almost 300 passent cloud-covered over the search
requesting a send 78° to 80° Shuang-Cheng-Cheng-(a)  2. (a)  (b) erea. A search (c)	memorandum is in response to your requirement dated 11 July 1963 search within the area bounded by the coordinates 40° to 42° 20'N E for possible missile associated facilities related to the Fru Test Renge.  did not cover the search area.  was almost 100 percent cloud-covered over the search of the cloud-free possion revealed no missile related facilities.  did not cover the search area.
requesting a send 78° to 80° Shuang-Cheng-	memorandum is in response to your requirement dated 11 July 1963 search within the area bounded by the coordinates 40° to 42° 20'N E for possible missile associated facilities related to the Fru Test Reage.  did not cover the search area.  was almost 200 persont cloud-covered over the search ch of the cloud-free yestion revealed no missile related facilities.  did not cover the search area.
requesting a send 78° to 80° Shuang-Cheng-	memorandum is in response to your requirement dated 11 July 1963 search within the area bounded by the coordinates 40° to 42° 20' N E for possible missile associated facilities related to the Exu Test Reage.  did not cover the search area.  was almost 300 persont cloud-covered over the search ch of the cloud-free possion revealed no missile related facilities.  did not cover the search area.  did not cover the search area.  should you have any further questions concerning this project.

Declass Review by NGA.
